

REPLACEMENT BATTERY PELI™ LITHIUM ION RECHARGEABLE

26.82€ HT

REPLACEMENT BATTERY PELI™ LITHIUM ION RECHARGEABLE

Compatible with

2780R - 3310R - 3315R-RA - 5050R - 7070R - 7600 - 7610 - 7620

The Peli™ rechargeable lithium-ion battery is perfect for supplying the electrical power for your Peli™ flashlight. The manufacturer produces each battery to ensure that your flashlight delivers the maximum of its lighting potential. Take advantage of the wide range of Peli™ accessories to equip yourself with a flashlight battery. Also take advantage of the competitive prices of Peli™ flashlight accessories! The Peli™ lithium-ion battery provides reliable and safe power for your lighting. Description of the Peli™ lithium-ion battery for LED flashlight Proteclight offers the Peli™ rechargeable lithium-ion battery for LED flashlights directly from the manufacturer's factories. The battery corresponds to the dimensions required for the battery compartments for the following Peli™ LED flashlights: 2780R - 3310R - 3310R-RA - 5050R - 7070R - 7600 - 7610 - 7620 The format of the battery for LED lamp corresponds to the market standard, known as 18650, and provides a large autonomy and an ecological solution. Characteristics of Peli™ rechargeable lithium-ion battery for LED flashlight The Peli™ rechargeable lithium-ion battery supports 500 to 1000 charge/discharge cycles. The lithium-ion battery (LiCoO2) for LED flashlight has the following characteristics :

- battery capacity: 2600 mAh ;
- battery voltage: 3.7 V ;
- energy delivered by the flashlight battery: 9.6 Wh ;
- battery size: 18 x 65 mm;
- weight of each battery: 48 g.

Advantages of the Peli™ LED flashlight lithium-ion battery The Peli™ rechargeable lithium-ion battery for flashlight and LED headlamp features the latest innovations. The lithium-ion technology of the battery has a mass energy 2 to 4 times higher than a NiMH or NiCd battery. The Peli™ LED Lithium-ion battery has no memory effect and has a low self-discharge rate.
