HEADLIGHT PELI™ 2740

Max power 66 lumens

The Peli™ 2740 headlamp is a headlamp combining power, autonomy and technology. This Peli™ headlamp, in the torch category, is one of the indispensable accessories for industry professionals. The 2740 headlamp offers a maximum power of 66 lumens. This power is adjustable (low/high) and divided into 3 LEDs. A red LED ensures vision in total darkness, ensuring the protection of the personnel, whatever the conditions of intervention.

Description of the Peli™ 2740 headlamp The 2740 headlamps are compact and lightweight (5.7 cm for 94 g). They are indispensable accessories for search operations in absolute darkness thanks to the red LED (night vision beam). The Peli™ 2740 headlamp offers variable lighting power: low (36 lumens for 16m range) or high (66 lumens for 22m range). In high mode, the search area is extended. In low mode, the autonomy reaches 21h.

Characteristics of the Peli™ 2740 headlamp The Peli™ 2740 headlamps have 3 LEDs (2 white and 1 red LED). These headlamps make it possible to spot objects even in total darkness. Upon delivery of the headlamp, you will receive a set of accessories such as :

- the fabric strap for bare head use ;
- the helmet mounting bracket;
- the AAA batteries.

The headlamp is not rechargeable. However, the power supply (AAA batteries) offers a long autonomy. The body of the Peli™ headlamp is made of polymer. The shock-proof property of the product offers ultimate protection even in extreme areas and situations. Advantages of the Peli™ 2740 LED headlamp The manufacturer has designed the Peli™ 2740 headlamp for professional use, but also for sports and leisure activities. You combine protection and safety thanks to the triple LED of the product. Searching for objects in total darkness is possible thanks to the red LED. For a light price, the LED lamp Peli™ 2740 offers you performance and autonomy in all circumstances.
